History

Sir Charles Palmer in September 1857 obtains building permit for land he has purchased from Latrobe. Prefabricated houses completed in December 1858. Palmer sells in 1871? - 1871 auction notice for Palmer's house in Hawthorn, and '5 comodious residences on 2 acres on highest point of Jolimont'. Palmer has links with architect Charles Vickers. (Prof. Miles Lewis: <http://fmpro.arbld.unimelb.edu.au/melbmansions>, entry for Invergowie.)

Archaeology

Cess pits. 1870s ban on pits. *Public Health Amendment Act 1867* – two years before Mornington was built. Night soil man and 2 pan system, replace soiled pan with a clean one each night. Holes in walls for pan system bricked up after sewerage introduced. Cesspits used until late 1860s(?) at Jolimont Square until replaced by night soil service. Cesspits may be located close to location of subsequent closets (marked 'C' on MMBW plans). Each of the prefabs had two closets, but Mornington had only one. Check sewerage indicated on MMBW – closets without sewerage may be the original cesspits. Cesspits at Little Lonsdale street were squared bluestone lining to a square pit, with a later barrel dropped in and the cavity filled with rubbish.

This place/object may be included in the Victorian Heritage Register pursuant to the Heritage Act 2017. Check the Victorian Heritage Database, selecting 'Heritage Victoria' as the place source.
