## Statement of Significance

Last updated on - May 11, 1999

The Oriental Claims Hydraulic Gold Sluicing Site consists of a vast network of sluicing faces, pebble dumps, tail races and water races. Water for sluicing would have been delivered to the site by high pressure pipelines and then directed at the gold bearing deposits. The technology was introduced into Victoria in about 1855. The name for the Historic Area comes from the name of a sluicing company which worked the area from 1876-1904; but the term also acknowledges the significant contribution of Chinese miners to the area's history.

The Oriental Claims Hydraulic Gold Sluicing Site is of historical, archaeological and scientific importance to the State of Victoria.

The Oriental Claims Hydraulic Gold Sluicing Site is historically and scientifically important as a characteristic and well preserved example of an early form of gold mining. Gold mining sites are of crucial importance for the pivotal role they have played since 1851 in the development of Victoria. Hydraulic sluicing of alluvial gold deposits is an important key ingredient in an understanding of gold mining technology as it was employed in a country where water was plentiful and perennial.

The Oriental Claims Hydraulic Gold Sluicing Site is archaeologically important for its potential to yield artefacts and evidence which will be able to provide significant information about the cultural history of gold mining and the gold seekers themselves.

## Permit Exemptions

EXEMPTIONS FROM PERMITS: (Classes of works or activities which may be undertaken without a permit under Part 4 of the Heritage Act 1995) No permits are required for the following classes of works provided they are carried out in accordance with the provisions of the Conservation Plan For Historic Mining Sites prepared by David Bannear in 1996. \* Mineral Exploration \* Fire suppression duties \* Timber production \* Weed and vermin control \* Public safety \* Rehabilitation

Construction dates 1851,

Heritage Act Categories Registered place, Registered archaeological place,
