Archaeological Significance	High archaeological potential - contains remains of significant, hisotric early mill.
Historical Significance	High historic significance as an example of mid 19th century mill site.
Hermes Number	10280
Property Number	

History

Heritage Inventory History of Site: Built circa 1841-2, Carome Mill was one of three grain mills operating in the Plenty Valley and was possibly the second one built. By 1867 the mill had ceased operation due to the decreased flow of Plenty River caused by construction of Yan Yean Reservoir. The mill was 2 storeyed, bottom being

bluestone, the top timber. There was a fire at the mill in 1868.

First established in 1841 by Arthur Sergeasrtson. Purchased by Willis and Hardesty in 1857 and rebuilt. Expanded with overshot wheel. Cease operation in 1867. Mill fired in 1868.

This place/object may be included in the Victorian Heritage Register pursuant to the Heritage Act 2017. Check the Victorian Heritage Database, selecting 'Heritage Victoria' as the place source.
