## Physical Description 1

The Wallen Road Bridge is a road bridge which connects Swan Street, Richmond, with Wallen Road (which becomes Riversdale Road), Hawthorn.

The structure comprises four steel girder spans supported on cross-braced circular hollow section columns. The deck carries four lanes of traffic, including two tram tracks, and has a footpath on either side.

The 1916 ornamental tram wire supports are simple steel structures with supports on either side of the roadway. The curved brackets are embellished with steel scrollwork.

## Integrity

not assessed

*This place/object may be included in the Victorian Heritage Register pursuant to the Heritage Act 2017. Check the Victorian Heritage Database, selecting 'Heritage Victoria' as the place source.*
