History

Heritage Inventory History of Site: The No. 4 mill was constructed when log supplies were diminishing further down the Britannia Creek Valley. A one thousand acre logging lease was taken out and the mill was opened near the end of WW 1. The Yelland brothers operations concentrated on this and the No. 3 mill after they took it over. The communities around the mill grew rapidly from 1925, but the mill closed in late 1932.

This place/object may be included in the Victorian Heritage Register pursuant to the Heritage Act 2017. Check the Victorian Heritage Database, selecting 'Heritage Victoria' as the place source.
