History

Heritage Inventory History of Site: The first mill in the Rubicon Forest, it was built by Clark and Kidd in 1906. It was driven by a 65 hp Pelton wheel driven by water diverted from the Rubicon River along a four mile race. The No. 1 mill developed as a social centre in the 1920s and 1930s when about 200 workers inhabited the Rubicon Forest. It boasted a telephone, tennis court and school. The mill was destroyed in the 1939 bushfires.
