## Statement of Significance

Last updated on - June 28, 1999

This building is most probably the only suburban scale house in Victoria in the American Romanesque style, as well as being the first residence built in this style. Architect EG Kilburn visited the United States of America in 1889. This boarders' residence for the Priory Ladies' School was constructed in the first half of 1890. The Priory, 61 Alma Road, St Kilda, is of architectural and historic importance for the following reasons:

- as probably the only suburban scale house in Victoria in the American Romanesque style, as well as being the first residence built in this style in Victoria.
- as a notable work of the architect EG Kilburn who visited America in 1889 and reflected his experience in this design.
- for the quality of its interior fittings and detailing.

## Permit Exemptions

### General Exemptions:

General exemptions apply to all places and objects included in the Victorian Heritage Register (VHR). General exemptions have been designed to allow everyday activities, maintenance and changes to your property, which don't harm its cultural heritage significance, to proceed without the need to obtain approvals under the Heritage Act 2017.

Places of worship: In some circumstances, you can alter a place of worship to accommodate religious practices without a permit, but you must **notify** the Executive Director of Heritage Victoria before you start the works or activities at least 20 business days before the works or activities are to commence.

Subdivision/consolidation: Permit exemptions exist for some subdivisions and consolidations. If the subdivision or consolidation is in accordance with a planning permit granted under Part 4 of the *Planning and Environment Act 1987* and the application for the planning permit was referred to the Executive Director of Heritage Victoria as a

determining referral authority, a permit is not required.

Specific exemptions may also apply to your registered place or object. If applicable, these are listed below. Specific exemptions are tailored to the conservation and management needs of an individual registered place or object and set out works and activities that are exempt from the requirements of a permit. Specific exemptions prevail if they conflict with general exemptions.
