## Physical Description 1

### DESCRIPTION

The cottages at 68 Villamanta Street are attached but dissimilar gabled roof residences. Number 8 has an eastern extension built on along the frontage making it the larger of the two. They are constructed of face brickwork now painted, whilst No.6 has the added sophistication of quoining in render around the windows and door. Number 8 retains its twelve pane sash windows. Both verandahs appear to be later additions. These cottages are typical of the early dwellings of simple vernacular architectural style, which once would have been common in Geelong West.
