HO478

Heritage Listing

Greater Bendigo City

Statement of Significance

Last updated on -

The site is representative medium-level low-production mine sites in the Whipstick area (criterion D) and has potential to illustrate these activities because it contains some relatively undisturbed quartz mining of the 1870s (criterion C).

Heritage Study/Consultant	Greater Bendigo - Marong Heritage Study 1999, Andrew Ward and Associates, 1999;
Construction dates	1860,

Physical Description 1

A line of seven small mullock heaps, running north-south for a length of about 500 metres. The largest heap lies at the north end of the line and has one dumping line, 30 metres long and 5 metres high. The associated shaft has been filled, and there are no visible machinery foundations.

Physical Description 2

The site is approximately rectangular in area, 500 metres from north to south and 150 metres from east to west and includes all open cuts, shafts, mullock heaps and house and machinery sites.

This place/object may be included in the Victorian Heritage Register pursuant to the Heritage Act 2017. Check the Victorian Heritage Database, selecting 'Heritage Victoria' as the place source.
