
Eucalyptus regnans

Location

Toora-Gunyah Road GUNYAH, SOUTH GIPPSLAND SHIRE

Municipality

SOUTH GIPPSLAND SHIRE

Level of significance

State

Heritage Listing

National Trust

Statement of Significance

Last updated on - January 1, 1900

What is significant?

This Mountain ash lies deep within the old growth/plantation mix in the Gunyah region of the Strezelecki Ranges and is one of a set of large old growth trees in Victoria (T12342, T12343, T12344, T12345, T12346, T12347, T12349, T12350, T12351, T12356, T12357, T12358). It is located 400 m west off Toora-Gunyah Road, Gunyah State Forest, Strezlecki Ranges.

How is it significant?

This Mountain ash (*Eucalyptus regnans*) is significant for scientific reasons at State level.

Why is it significant?

This tree is outstanding for its size, with a height of 46m, spread of 20m and large girth of 15.7m, which is the second largest girth of any known living tree in Victoria. Its trunk has broken at 46m height, but it is substantial to this point. It has an unusual epicormic sprout or suppressed young tree growing about 2m up. This Mountain ash is an outstanding example of the species. The first known measurements of this tree were taken in September 2013.

Measurements: 21/09/2013

Spread (m): 20

Girth (m): 15.7

Height (m): 46

Estimated Age (yrs): 200+

Condition: Good

Access: Restricted

Classified: 04/12/2018

Other Names Mountain ash,

Hermes Number 201781
