### Statement of Significance

Last updated on - December 8, 2021

#### What is significant?

This Horizontal Elm grows in the front yard of a house in Mount Waverley, on a residential street.

#### How is it significant?

This Horizontal Elm is significant for scientific and social reasons at the Regional level.

**Why is it significant?**

This Horizontal Elm is scientifically significant for horticultural value and rarity. An uncommon cultivar of Elm, this is an impressive specimen due to careful grafting seen on the trunk. It is a taller specimen than most in the Significant Tree Register (T11412 – Brighton, T11304 – Ballarat, T11658 – Mount Macedon). It is socially significant for its contribution to the landscape, dominating the block with its vibrant broad canopy.

**Tree Measurements:**

Condition: Good

Tree Type: Individual

Circumference: 2.2m

Height: 12.8m

Canopy Spread: 13m

Height method: Instrument

Circumference method: Tape measure

Date of measurement: 11/11/2020

Age of tree: 50-60 years

Other Names      Horizontal Elm,

Hermes Number    208335

Property Number
