## Statement of Significance

Last updated on -

Pump station shed of corrugated iron and milled timber, jetty with metal pipe and depth guage and collapsing fencing. Pump supplied water to steam trains. Shed has been rebuilt/restored since burning down in the 1940s - pump is essentially still intact.

Low-moderate historical significance and moderate scientific significance. Of local and probably also regional significance.

Interpretation of Site Pump station to supply steam trains with water at Hattah station in the early C20th

Hermes Number 23079

## History

Constructed in 1902 to supply steam trains with water at Hattah Station. Original pump station was burnt down in 1940. The pump house was rebuilt and restored by The Friends of Hattah Group. The site is linked to the expansion of settlement and railway infrastructure into the Mildura Hattah area.
