Statement of Significance

Last updated on -

C Listed - Local Significance

The house at 35 Bailey Street is aesthetically significant at a LOCAL level. Although partially altered, it still demonstrates original design qualities of the Late Victorian style. These qualities include the hipped slate roof, horizontal weatherboard wall cladding, two c.1900 unpainted brick and corbelled chimneys with terra cotta pots, narrow eaves, and timber framed double hung windows.

Overall, the house at 35 Bailey Street is of LOCAL significance.

Physical Description 1

DESCRIPTION

The house at 35 Bailey Street has a substantial front setback of approximately 7 metres, with typical narrow side setbacks. These setbacks are shown on the 1968 GWST Plan of Drainage.

The single storey, symmetrical, horizontal weatherboard Late Victorian style house is characterised by a hipped slate roof. Two early, c.1900 unpainted brick and corbelled chimneys with terra cotta pots adorn the roofline.

Narrow overhangs are a feature of the eaves. The early timber framed double hung windows are symmetrically located about the central doorway. One window at the front has recently been replaced as a full length type.

There is also evidence that an early verandah has been removed from the front of the house, while a recent skillion extension is visible at the south side.

This place/object may be included in the Victorian Heritage Register pursuant to the Heritage Act 2017. Check the Victorian Heritage Database, selecting 'Heritage Victoria' as the place source.
