Physical Description 1

The site appears to be under a modern brick warehouse. The interior floor seems to be on the grade so the construction of the warehouse may not have impacted much on the site. The warehouse seems to have been constructed in two stages with the earlier stage at the back of the site and a more recent extension on the front facing Whitehall Street.

This place/object may be included in the Victorian Heritage Register pursuant to the Heritage Act 2017. Check the Victorian Heritage Database, selecting 'Heritage Victoria' as the place source.
