## Statement of Significance

Last updated on -

What is significant?

Henry's No.1 Mill was the largest sawmill in the eastern Otways, operating from 1904-1927. The mill settlement included a boarding house, bakery, store, billiard room, post office and school, with huts for single men and cottages for families. The mill site extends in a clearing along the West Barwon river, and features intact tramway formations, extensive scatters of domestic debris, mature exotic trees, and numerous foundations of industrial and residential buildings.

How is it significant?

Henry's No.1 Mill is of historical and archaeological significance to the State of Victoria.

Why is it significant?

Henry's No.1 Mill is historically important as a characteristic example of a large, isolated sawmill with associated settlement. Sawmilling sites are important to Victoria for their role in providing a vast range of timber products for use in domestic, commercial and industrial contexts. Henry's No.1 Mill was a long-established bush mill (23 years), supplying timber to centres throughout western Victoria, including Colac, Geelong, Hamilton and the Ballarat goldfields. It was associated with a major figure in the Victorian sawmilling industry, WR Henry.

Henry's No.1 Mill is archaeologically important for its potential to yield artefacts and evidence which will be able to provide significant information about the technological history of sawmilling, and the cultural history of sawmilling settlements.

## Permit Exemptions

### General Exemptions:

General exemptions apply to all places and objects included in the Victorian Heritage Register (VHR). General exemptions have been designed to allow everyday activities, maintenance and changes to your property, which don't harm its cultural heritage significance, to proceed without the need to obtain approvals under the Heritage Act 2017.

Places of worship: In some circumstances, you can alter a place of worship to accommodate religious practices without a permit, but you must [notify](#) the Executive Director of Heritage Victoria before you start the works or activities at least 20 business days before the works or activities are to commence.

Subdivision/consolidation: Permit exemptions exist for some subdivisions and consolidations. If the subdivision or consolidation is in accordance with a planning permit granted under Part 4 of the *Planning and Environment Act 1987* and the application for the planning permit was referred to the Executive Director of Heritage Victoria as a determining referral authority, a permit is not required.

Specific exemptions may also apply to your registered place or object. If applicable, these are listed below. Specific exemptions are tailored to the conservation and management needs of an individual registered place or object and set out works and activities that are exempt from the requirements of a permit. Specific exemptions prevail if they conflict with general exemptions.

Find out more about heritage permit exemptions [here](#).

### Specific Exemptions:

General Conditions:

1. All exempted alterations are to be planned and carried out in a manner which prevents damage to the fabric of the registered place or object.
2. Should it become apparent during further inspection or the carrying out of alterations that original or previously hidden or inaccessible details of the place or object are revealed which relate to the significance of the place or object, then the exemption covering such alteration shall cease and the Executive Director shall be notified as

soon as possible.

3. If there is a conservation policy and plan approved by the Executive Director, all works shall be in accordance with it.

4. Nothing in this declaration prevents the Executive Director from amending or rescinding all or any of the permit exemptions.

5. Nothing in this declaration exempts owners or their agents from the responsibility to seek relevant planning or building permits from the responsible authority where applicable.

Exemptions:

- \* fire suppression
- \* public safety
- \* land care maintenance
- \* erosion and salinity control
- \* weed and vermin control
