## Statement of Significance

Last updated on - June 4, 2004

Rare or localised

Outstanding example of specie

Growing on the north-east facing slope, this individual specimen stands out from surrounding plantings due to its rounded crown reaching ground level and striking blue foliage. This endemic species is restricted to eastern Victoria (Buchan to Lakes Entrance) on limestone soils. Three mature trees, planted by Melbourne University in circa 1975, grow at Miegunyah, Toorak and a large specimen occurs opposite the main entrance to the Bailleau Library, Melbourne University.

The tree is located in Lake Tyers Forest Park, Princes Highway, south west side of Toorloo Arm Bridge.

Measurements: 15/10/1993  
Spread (m): 11.7  
Girth (m): 1  
Height (m): 8.25  
Estimated Age (yrs): 50  
Condition: Good

Access: Unrestricted  
Classified: 11/11/1993

Other Names      Buchan Blue Wattle,

Hermes Number    70518
