National Trust

Statement of Significance

Last updated on - July 20, 2004

Contribution to the landscape
Outstanding size
Outstanding example of species

A native of New Zealand, the Cabbage Tree (*Cordyline australis*) was very popular in the late 1880s and can be found in many historic gardens. This specimen is the largest known in cultivation in Victoria.

March 2015: Andrew Blackman observed the tree to be in much better condition than a previous visit 10 years ago during drought.

Measurements: 05/1985
Spread (m): 10.4
Girth (m): 3.4
Height (m): 11.1
Estimated Age (yrs): 120
Condition: Excellent

Measurements: 25/01/2004
Spread(m): 10.4
Girth (m): 4.7
Height (m): 10
Estimated Age (yrs): 139
Condition: Fair

Access: Unrestricted
Classified: 13/06/1985
