National Trust

Statement of Significance

Last updated on - June 8, 2004

Horticultural value
Contribution to the landscape

A large and dominant tree growing in the garden's reserve. The first planting in the reserve occurred in the 1878-79. Its significance is due to the presence of an outstanding example of *Cedrus atlantica f. fastigiata* growing nearby. The different growth habits of the trees is clearly recognisable.

Measurements: 07/1985
