
Acacia omalophylla

T11199 Acacia omalophylla

Location

Almonds Road,, WILBY VIC 3728 - Property No T11199

Municipality

MOIRA SHIRE

Level of significance

State

Heritage Listing

National Trust

Statement of Significance

Last updated on - June 16, 2008

Rare and localised

Acacia omalophylla is listed as an endangered species in Victoria, and this stand is the largest known example of this species in the State. Another smaller stand (2-3 old trees & 50 suckers) occurs at Yalca. Located at an altitude of 150m, an area of approximately 2 ha has been fenced off from agricultural use. The stand appears of an even age, however there is sucker regrowth around the perimeter and open areas. Numerous stands of *Callitris glaucophyllus* (Syn. *Callitris columellaris*) occur nearby and isolated *Eucalyptus microcarpa* (1 tree within stand).

These trees are located west of Howells Road, near the corner of Almonds and Roberts Roads, St James.

Measurements: 01/06/1988

Spread (m): 11.5
Girth (m): 1.32
Height (m): 13.4
Estimated Age (yrs): 150
Condition: Good

Access: Restricted
Classified: 09/06/1988

Other Names Yarran,
Hermes Number 70703
Property Number
