Statement of Significance

Last updated on - June 9, 2004

Contribution to the landscape
Outstanding size

This Turkey Oak is located at the back of the conservatory at start of Prime Ministers Walk, between Alfred Deakin and GH Reid bust. It has a very large spreading canopy and is the largest known example of species in cultivation in Victoria. (1982) *Quercus cerris* is native to south-eastern Europe and Asia Minor and is widely planted and naturalised throughout much of Europe
