National Trust

Statement of Significance

Last updated on - June 16, 2008

Rare or Localised
Historical value

These trees are the first specimens imported into Australia. In June 1879, Mr George Cunnack, a tanner from Castlemaine, had two Wardian cases made up in London and sent to Smyrna, Turkey, where acorns and 20 rooted plants were collected and sent to Australia. The 14 trees at Winter's Flat, are on the original site of Cunnack's Tannery and are from that original collection. The cups of the Valonia Oak contain substances used for hardening leather and tannic acid used in the tanning process.

2012: Condition reported to have deteriorated. 2016: 11 of the 14 trees have died.

Measurements: 07/04/1995

SW

Spread (m): 12.7

Girth (m): 1.68

Height (m): 10.5
