Location

Colac Botanic Gardens, Fyans Street., COLAC VIC 3250 - Property No T11494

Municipality

COLAC OTWAY SHIRE

Level of significance

Regional

Heritage Listing

National Trust

Statement of Significance

Last updated on - July 16, 2004

Horticultural value.

Contribution to landscape of historic garden

This tree is a rare cultivar and may be the only mature specimen in cultivation in Victoria. A very upright tree, with very attractive golden leaf markings, its growth is possibly influenced by the site. A native of New Zealand, this cultivar was raised in Masterton in 1964. Another New Zealand native of considerable size, *Alectryon excelsus*, is growing nearby

The tree is located in the shrubbery near a large *Sophora japonica*

Measurements: 08/1986

Spread (m): 2.5

Girth (m): 0.5

Height (m): 8.5

Estimated Age (yrs): 20

Condition: Good

Measurements: 25/11/2003

Spread (m): 6

Girth (m): 0.9

Height (m): 11

Estimated Age (yrs): 38

Condition: Good
