National Trust

Statement of Significance

Last updated on - June 17, 2004

Contribution to landscape
Outstanding size

A spectacular tree which has grown very large. It has been planted at the highest point in the gardens and dominates the skyline of the area. The tree is a native of California, growing to 12-25m and producing edible seeds. Other known examples occur at Castlemaine, Eastern Park, Geelong and Royal Botanic Gardens. It is located near the aviary
