Statement of Significance

Last updated on - June 28, 2004

Rare or localised

A fine specimen tree in the area surrounding the main oval, north of the grandstand. This tree is the only known example of the species in Victoria. It has grown into a well-shaped specimen and is a valuable component of the landscape. The tree is part of a valuable collection of Junipers in the park. The tree would benefit from tree surgery to remove deadwood and well as protection from carparking. Propagation is recommended.

Measurements: 04/07/1994

Spread (m): 8.8

Girth (m): 1.8

Height (m): 9.5

Estimated Age (yrs): 80

Condition: Good

Access: Unrestricted
