Statement of Significance

Last updated on - August 30, 2007

What is significant? The pipework, action, windchests, wind system, console and casework of the pipe organ opened 7 August 1949.

How is it significant? The organ is significant for historic and aesthetic reasons at a regional level

Why is it significant? The pipe organ at the Baptist Church, Footscray is significant for the following reasons:

- It retains its original console, mechanisms and wind system
- It retains its original architect-designed casework, of excellent design
- It retains all of its original pipework
- It is the largest example of the firm's new work dating from immediately after the second world war to remain intact
- It exhibits a generosity of construction, internal spaciousness and excellence of materials and workmanship that is unusual for the period
