Physical Description 1

The house is situated close to the street boundary behind an introduced high rendered masonry wall. The central entry gate is flanked by two Italian Cypress trees. The house has a hipped roof clad in corrugated steel. The walls are of painted render. It would appear that a front verandah has been removed. There are timber framed double hung windows. Adjacent are large shed formed buildings with dormer windows in the roof. The building retains the form and materials of a Victorian dwelling.

This place/object may be included in the Victorian Heritage Register pursuant to the Heritage Act 2017. Check the Victorian Heritage Database, selecting 'Heritage Victoria' as the place source.
