History

Heritage Inventory History of Site: Feiglins constructed a mill and extensive seasoning kilns next to the Archeron River. The family were primarily orchardists who wanted to cut and season shooks for fruit cases. The No 1 mill was completed in 1934, after being moved from Powelltown. A 2500 yard long incline, rising 1450 feet, was built to obtain timber from the ridge to the east of the mill. Eventually a 'spot ' mill was installed at the top of this incline. No 1 mill was burnt down in 1937, and again in 1939 and rebuilt both times. The mill was burnt again in 1955 and was not rebuilt, the area being cut out.
