Statement of Significance

The house is one of the oldest in the immediate neighbourhood, an area where many of the original houses have been demolished to make way for car parks. Although the house was built at a time when McKay's Sunshine subdivisions were growing apace, the property was in fact part of a much earlier subdivision, of the late 1880s, and represents a link with the earlier settlement of Braybrook Junction.

Heritage Study/Consultant	Brimbank - Brimbank City Council Post-contact Cultural Heritage Study, G. Vines, 2000;

Physical Description 1

Description

Early 20th century double-fronted weatherboard with remnant garden, within an 1880s subdivision. The house is weatherboard, with corrugated iron roof and prominent brick chimneys. A small front gable behind the front chimney and the fretworked bullnose verandah are similar to those on a number of houses built about the period 1912-1914. There are a large number of trees in the back garden. The laneway behind the house still exists.
