Interpretation of Site	Heritage Inventory Interpretation: The woolshed is constructed of sawn logs, as are the associated pens. The sawn timber may have originated from a sawmill at Loy Yang, which operated from the 1870s. A twentieth century date is more likely. The footings of the homestead are concrete and therefore twentieth century. The cistern and the brick drain are of hand made brick and may be nineteenth century.

History

Heritage Inventory History of Site: The site is at the centre of a selection taken up in the 1870s and used to run sheep. The land was purchased in the 1970s by the State Electricity commission and is now leased from Loy Yang Power by a tenant farmer.

This place/object may be included in the Victorian Heritage Register pursuant to the Heritage Act 2017. Check the Victorian Heritage Database, selecting 'Heritage Victoria' as the place source.
