Statement of Significance

Last updated on - July 5, 2000

The Brisbane Hill Road Bridge, constructed by the Country Roads Board in 1936 to replace an early 1900s bridge washed away in the December 1934 floods, has high local significance as an important district bridge located in the centre of the Warburton Township.

Heritage Study/Consultant Yarra Ranges - Shire of Yarra Ranges Heritage Study, Context Pty Ltd, 2000;

Physical Description 1

The Brisbane Hill Road Bridge is a landmark within Warburton township. The bridge is a steel-framed structure set on concrete pylons, with a timber deck and railings. The steel I shaped beams for the bridge are marked as either BHP or Lanarkshire Co Ltd Scotland. It crosses the Yarra River.

The bridge is a dramatic structure within the township because of its size and dominant steel frame, a contrast to the surrounding forested hills.
