Physical Description 1

A pair of attached single storey weatherboard shops with a stepped parapet with moulded timber coping. The shop fronts appear to have been remodelled c.1930 and have splayed ingoing entrances with tessellated tile floors and pressed metal soffits. The shop fronts also have tiled stallboards and large metal framed windows surmounted by a band of highlight windows with figured glazing (over-painted). Above the highlight windows is a strip of ashlar pattern timber cladding which is presumably original. There is also remnant timber quoining to the side elevation. The convex corrugated iron verandah with a serrated timber valance to the front of the shops appears to be a relatively recent reconstruction. A gable roofed weatherboard outbuilding at the rear of the shops is possibly original.
