History

Contextual History:History of Place:

Heritage Inventory History of Site:

A production of 28 ounces from 7 tonnes was reported in 'Gold at Gaffney's Creek', and in the Mining Surveyors Report for Mark 1870 stated that the company was erecting a steam engine and an eight head battery. There was sporadic activity during the 1890s. There were a few more attempts in the early 1900s, then again in 1918/19 and there were some small quantities of gold recorded in the 1920s.

Upper Goulburn Heritage Plan, Parks Victoria 1999

This place/object may be included in the Victorian Heritage Register pursuant to the Heritage Act 2017. Check the Victorian Heritage Database, selecting 'Heritage Victoria' as the place source.
