Statement of Significance

Last updated on - November 1, 2009

Statement of Significance as recorded under the Queenscliff Heritage Study 2009

Carnbrea is a detached double-fronted weatherboard Italianate villa with a hipped roof in corrugated galvanised steel cladding. The facade is asymmetrically composed with a projecting bay to the north. The remainder of the facade has a verandah extending across it with timber posts and a concave profile roof; this is not original. Weatherboards on the facade replicate rustication but unusually without the vertical lines. Fenestration is timber framed in a tripartite arrangement. The two chimneys are brick and have been over painted. At their tops are Classically-inspired rendered mouldings. A pair of air ventilators is fitted to the roof.

Heritage Study/Consultant	Queenscliffe - Queenscliffe Urban Conservation Study, Allom Lovell & Associates P/L, Architects, 1982; Queenscliffe - Queenscliffe Heritage Study, Lovell Chen, 2009;
Construction dates	1896,
Hermes Number	120612
Property Number	

Physical Description 1

The verandah is supported on iron posts and brackets, with a sunflower frieze.(4) The timber facing of the front facade is of an ashlar pattern. The doorway has panelled side and top lights and the front windows consist of a mainlight and two sidelights each. Of more importance in Carnbrea are the roof ventilators with their club pattern architraves, cut from sheet metal.

Physical Description 2

Double fronted 1890s corrugated iron and weatherboard house. Exact reflection of 93.

Physical Description 3

Extract from the 2009 study

Carnbrea is a detached double-fronted weatherboard Italianate villa with a hipped roof in corrugated galvanised steel cladding. The facade is asymmetrically composed with a projecting bay to the north. The remainder of the facade has a verandah extending across it with timber posts and a concave profile roof; this is not original. Weatherboards on the facade replicate rustication but unusually without the vertical lines. Fenestration is timber framed in a tripartite arrangement. The two chimneys are brick and have been over painted. At their tops are Classically-inspired rendered mouldings. A pair of air ventilators is fitted to the roof.
