Possibly the Jubilee No.1 and/or the North Jubilee.

Other Names THE NORTH JUBILEE, JUBILEE NO.1,

Hermes Number 12076

Property Number

---

## History

Contextual History: History of Place:

NORTH JUBILEE CO., Long Gully

19.01.1901: sinking the shaft further.

20.12.1902: will commence erecting a winding plant after the holidays; have retimbered the shaft down to the water table at 120 feet.

10.01.1903: levelling on the surface near the shaft to allow the erection of a steam winch

31.01.1903: plant from the New Caxton Co. mine was moved to this mine.  
14.02.1903: boiler being bedded and poppet legs are being raised over the No.2 shaft.  
31.03.1903: finishing off the battery.  
28.11.1903: slate intermixed with the formation which also carries a high percentage of mineral; takes a high flow of water to keep the plates and ripples clear, as the gold is very fine; no doubt a good percentage of it will be saved in the concentrates; two wilfley tables are used in addition to the canvas tables.  
12.12.1903: suspended operations after a poor result from working the 10 head battery for only one month.  
19.12.1903; resumed operations.  
30.01.1904: repairing the connecting rod for the winding engine.  
13.05.1905: has a 10 head battery.  
10.03.1906: compelled to close after several years of prospecting; gold was found but not in large enough quantities.  
30.06.1906: winding plant from this mine was moved to the South Port Arthur at Piggoreet.
