## Statement of Significance

Last updated on - July 1, 1999

The Warringal Village is of local historical significance. The village was laid out in 1838-39, and thus was probably the third or fourth Government township design in Victoria, the others being Melbourne, Williamstown and Pentridge (Coburg).

The area-part of the original village reserve-retains some of Hoddle's original street alignments. The most significant remaining buildings include St John's Anglican Church, the village's second oldest building, and subsequent civic buildings such as the Police Residence and Court House.

The adjoining Heidelberg Park is an important surviving 19th century landscape.

## Physical Description 1

The Warringal Village precinct is part of the original village reserve and is centred around St John's Anglican Church geographically and historically. The development includes the adjacent Heidelberg Park (first gazetted in 1872) and the exotic planting in and along the Yarra. The buildings along Jika Street are visible from Heidelberg Park and relate architecturally to the 19th century church.

The following buildings from the Warringal Village are included :

- . St John's Anglican Church & Residence, Burgundy Street (1849-51)
- . Former Police Residence, Jika Street (1859)
- . Former Court House, Jika Street (1899-1900)

## Physical Description 2

### Landscape

Planting within Warringal Village (St. John's/Heidelberg Park) is predominantly exotic with a concentration of conifers. Dominant plant species include Bunya Bunya Pine (*Araucaria bidwillii*), Hoop Pine (*Araucaria cunninghamii*), Cedars (*Cedrus* spp.), Cypressess (*Cupressus* spp.) and Monterey Pine (*Pinus radiata*). Other exotic trees present include Poplars (*Populus* spp.), Oaks (*Quercus* spp.) and Elms (*Ulmus* spp.).
