Heritage Study/Consultant Ballarat - Ballarat Conservation Study, Jacobs Lewis Vines Architects, 1978;

Hermes Number 123846

Property Number

Physical Description 1

This fake, timber ashlar fronted house is of interest for its bay windows elaborate timber verandah. The house would appear to have been constructed in the early 1900' s. The entrance way is marked by a gablet rising from the main roof structure, the wide opening in the verandah and timber doorway with coloured glass side lights. The verandah follows the contours of the bay windows and has three timber balusters flanking a central fretwork panel with an elliptical arch above a series of punched circles. The timber frieze is supported on fanned timber columns and consists of small balusters alternating with elliptical panels.

This building is an important element of the environmental area A.5.1.

Intactness

Part of Recommended Area A5.1

No SoS provided in this citation. Please refer to descriptions, history, construction, loc govt, listings and images sections in this place record for further information.

This place/object may be included in the Victorian Heritage Register pursuant to the Heritage Act 2017. Check the Victorian Heritage Database, selecting 'Heritage Victoria' as the place source.
