Statement of Significance

Last updated on - May 8, 2002

Significant regionally as a large mill, early in the region and relatively long-lived.

Interpretation of Site	Stone boiler setting would have supported a boiler up to 40 metres long and about 1.45 metres in diameter. The earthworks of the mill indicate a vertical breaking-down saw and a rip bench were installed, with the sawdust descent to the creek along a trench 17 metres long and 1.5 metres wide.
