Providing administrative structures and authorities - defence

Usage/Formal Usage

Vacant

Veterans Description for Public

Camberwell Drill Hall, on Camberwell Grove, was built during the First World War. The expansion of the armed forces from 1911 and then the outbreak of the First World War resulted in a large number of drill halls being constructed by the Commonwealth up to 1918. During this period, drill halls were constructed to only two basic designs and varied only in size. Except for the naval drill halls (Port Melbourne, in brick, and Western Port HMAS Cerberus, in timber), all of the drill halls like the one at Camberwell, were constructed in corrugated iron.

This place/object may be included in the Victorian Heritage Register pursuant to the Heritage Act 2017. Check the Victorian Heritage Database, selecting 'Heritage Victoria' as the place source.
