Physical Description 1

WW1 corrugated iron drill hall

Historical Australian Themes

Providing administrative structures and authorities - defence

Usage/Former Usage

Telstra

Veterans Description for Public

The Yarraville Drill Hall, formerly located on Somerville Road, was built during the First World War on a site acquired in December 1915. The expansion of the armed forces from 1911 and then the outbreak of the First World War resulted in a large number of drill halls being constructed by the Commonwealth up to 1918. During this period, drill halls were constructed to only two basic designs and varied only in size. Except for the naval drill halls (Port Melbourne, in brick, and Western Port HMAS Cerberus, in timber) all of the drill halls were constructed in corrugated iron.

This place/object may be included in the Victorian Heritage Register pursuant to the Heritage Act 2017. Check the Victorian Heritage Database, selecting 'Heritage Victoria' as the place source.
