Commemoration

Veterans Description for Public

Beazleys Bridge Memorial Gates consist of four posts with marble tablets which form the entranceway to the Beazleys Bridge Public Hall. The four posts are of rendered masonry with smooth rendered square bases. Each shaft has a shaped marble plaque which commemorates the participation of the district in war. The gates list the names of thirty-six fallen and returned soldiers from the First World War and the Second World War.

The Beazleys Bridge Public Hall has significance as a legacy of the development of the community and as a meeting place from the interwar period (c1920s - 1940s) period. The Beazleys Bridge Public Hall demonstrates original interwar design features including; the gambrel roof forms clad in unpainted galvanised corrugated iron, modest eaves, galvanised iron ventilation stacks, the weatherboard clad lower walls and strapped sheet clad upper walls, the timber framed, double hung windows with the upper sashes divided into sixpanes, the flat hood over the main doors and the vertical board double main entry doors. The sign board above the door appears to be original.

This place/object may be included in the Victorian Heritage Register pursuant to the Heritage Act 2017. Check the Victorian Heritage Database, selecting 'Heritage Victoria' as the place source.
