

# RALEIGH ROAD TRESTLE BRIDGE PILES

## Location

RALEIGH ROAD MARIBYRNONG, MARIBYRNONG CITY

## Municipality

MARIBYRNONG CITY

## Level of significance

Heritage Inventory Site

## Heritage Inventory (HI) Number

H7822-0502

## Heritage Listing

Victorian Heritage Inventory

Interpretation of Site	<p>The piles from a former bridge trestle bridge structure are located under the current bridge on the western side, between the current bridges' concrete pylon supports (Somerville, pers comms). The outer row of piles are predominantly submerged at high tide, and consist of one circular and four square piles, with a horizontal timber beam connecting the piles on the outer edge. A small square vertical timber was evident inshore near the southern extremity of the inshore pile row. Probably the former road bridge piles.</p> <p>The site has historical significance as a part of the early roadway infrastructure in the area.</p>
Hermes Number	13812
Property Number	

## History

This bridge was erected from 1868-9 with funds from the Melbourne Meat Preservation Works, and replaced the former pontoon bridge at the site. This bridge was demolished in 1911, to make way for the Monier concrete bridge. The latter bridge was later replaced by the current Raleigh Road Bridge.
