Physical Description 1

A pair of maisonettes, very carefully designed to appear as one garden villa. The design is purposefully asymmetrical with different treatments to the entrances, and a receding, less obvious entry to the smaller, secondary unit.

The design includes a prominent chimney with the name executed in render with a Hollywood like character. The garden reinforces the design and a low fence allows a greater presence in the street given the small setback.

This place/object may be included in the Victorian Heritage Register pursuant to the Heritage Act 2017. Check the Victorian Heritage Database, selecting 'Heritage Victoria' as the place source.
