Physical Description 1

A Californian bungalow illustrating typical details of the style, namely: red brick walls with rough cast panels; strapwork gables; deep verandah; raked eaves with exposed rafters; a large expanse of tiled roof with wide eaves; timber windows; and a long low feeling which settles the house into its garden setting. This house is further elaborated by buttresses to the entrance porch, basket weave balustrading, and classical columns to the verandahs. The composition is purposefully asymmetrical creating interest from the balanced arrangement of planes and volumes.

The house sits prominently on its corner site, addressing both streets.
