Physical Description 1

A heavily planted garden, and extensive overgrowth on walls, gable ends and roof prevent this building from being examined. What is visible is a landmark mansion executed in local bricks, with render dressings and a slate roof. The storey heights are particularly tall, and this feature in combination with the elaborate gables and particularly tall decorated chimney stacks produce a strong vertical emphasis to the overall design.

This place/object may be included in the Victorian Heritage Register pursuant to the Heritage Act 2017. Check the Victorian Heritage Database, selecting 'Heritage Victoria' as the place source.
