Physical Description 1

The building at 54 Fitzgerald Street, known at various times as St Joseph's Hall and St Joseph's Youth Club was constructed c.1922. It adopts a simple two-storey form that reiterates the sandstone detailing and red brick expression of the church. It was constructed to provide two shops at ground floor level and a hall space above. Despite alterations at ground floor level, the building remains legible as an important element within the broader

Church group. The building has been subdivided as apartments.
