Statement of Significance

Last updated on -

A Listed - State Significance

STATEMENT OF SIGNIFICANCE

No 2 Ardlui Drive is of state architectural significance as an early use, in 1969, of thin shell reinforced concrete in domestic construction outside Melbourne (where it's first uses were by Kevin Borland and Robin Boyd in 1952-54). It was constructed by the Newtown firm Monolithic Structures, and has historical significance as an example of the use of new materials for substantial residence built on a new subdivision to the west.

Physical Description 1

DESCRIPTION

An inverted U-Section reinforced concrete, thin shell structure with Stegbar window-wall ends (including yellow bottle glass). There are inverted bugle-shaped, cylindrical and hemispherical planters outside. It has a reinforced concrete link to a flat roofed brick structure with window wall ends. There is a sparse native garden

This place/object may be included in the Victorian Heritage Register pursuant to the Heritage Act 2017. Check the Victorian Heritage Database, selecting 'Heritage Victoria' as the place source.
