Physical Description 1

"1527 High Street is another two storey building that reiterates the theme of a simple, symmetrical facade defined by pilasters in unpainted cement render. The original face brick above the verandah has been painted white which has an adverse effect on the homogeneity of the streetscape. An unusual first floor window with a small awning and an elaborate sill modelled in cement render remains. The original shopfront has been replaced."

This place/object may be included in the Victorian Heritage Register pursuant to the Heritage Act 2017. Check the Victorian Heritage Database, selecting 'Heritage Victoria' as the place source.
