Physical Description 1

"This single-storey retail building comprises three small shops stepped vertically to address the sloping site. It is built in a simple style that recalls No 1511 on the opposite corner site. Again, subtly expressed pilasters, in this instance with decorative capping at parapet level, add rhythm to an otherwise plain facade. The original shopfronts have been replaced at Nos 1600 and 1602 but the group nonetheless retains the flavour of the original development. Building plans held in Stonnington Council Archives suggest that the verandah has survived from the original development in a modified form."
