Interpretation of Site	The All Nations Extended Mine site is a deep gold mine which operated during the mid to late 19th century. It produced 34,374 grams of gold during its operation.
Historical Significance	The site is of local significance given it is a well preserved example of a late 19th century deep lead mine. This is particularly so for the series of mines along Racecourse Road that offer information towards the growth and development of the Beaufort township.
Archaeological Significance	The All Nations Extended Mine Feature is a site of moderate archaeological significance. Given the preservation of archaeological material is good, subsurface deposits relating to deep lead mining during the late 19th century is likely.
