Physical Description 1

It is built of coursed quarry faced bluestone with a gable roof clad in slate. The church is entered by way of a rectangular porch which has a battlemented parapet and gothic arched doorway. Similar gothic arches are used for the windows. All the window and door enframements appear to be made of white granite from the Dog Rocks (near Batesford) as are the quoining, buttresses, corbelling and window tracery.

This place/object may be included in the Victorian Heritage Register pursuant to the Heritage Act 2017. Check the Victorian Heritage Database, selecting 'Heritage Victoria' as the place source.
